

Kiranjeet Kour

AI / ML ENGINEER · FULL-STACK DEVELOPER

Results-driven engineer with 2.5+ years of experience designing and deploying production-grade AI systems and scalable web applications serving 5,000+ users. Skilled in bridging machine learning, backend engineering, and frontend execution to deliver intelligent, high-impact software in fast-paced environments.

WORK EXPERIENCE

Software Engineer

Nov 2025 — Present

Training & Placement Cell · GNDEC, Ludhiana

- Architected and deployed a scalable placement management platform actively serving 5,000+ students with automated eligibility filtering, drive scheduling, and real-time result publishing.
- Implemented secure role-based access control for TNP coordinators alongside student-facing portals for drive registration and announcement tracking.
- Optimised database queries and API response times to ensure reliable performance under concurrent institutional load.

Software Engineer

Nov 2024 — Aug 2025

Mohey Innovations

- Owned end-to-end feature development across web and mobile products in a fast-paced startup environment, from UI to backend API design and deployment.

- React Native
- React Three Fiber
- Socket.IO
- Tailwind CSS

EDUCATION

B.Tech — Computer Science Engineering

Guru Nanak Dev Engineering College, Ludhiana

2024 – Present

Diploma — Computer Science Engineering

Govt. Polytechnic for Women, Jammu

2021 – 2024

12th Standard

NIOS · 70%

10th Standard

Guru Harkrishan Public School · 91%

ADDITIONAL TRAINING

Computer Application

Pride Institute, Jammu
1 Year · 2018–2019

Basic Typing Program

Pride Institute, Jammu
6 Months · 2019

MIOT — Mechatronics & IoT

Govt. Polytechnic Jammu
December 2023

- Contributed to ML-assisted product features by integrating model inference pipelines into live application workflows.
- Maintained a strong focus on code quality, performance, and scalability across all deliverables.

Software Engineer

Jul 2024 — Sep 2024

RD Group of Industries

- Delivered full-stack features under tight delivery timelines, collaborating closely with cross-functional teammates to integrate frontend and backend components.
- Developed internal tooling and data management systems to improve operational efficiency.

Junior Software Engineer

Apr 2024 — Jul 2024

Voltsec.io

- Contributed to real-world projects through hands-on development, documentation, and participation in agile sprint workflows.
- Established a strong foundation in professional software engineering practices, version control, and collaborative delivery.

KEY PROJECTS

TyperHouse 0.2 — ML-Powered Typing Platform

typerhouse.tech ↗

Nov 2025 – Feb 2026

- Designed and trained a predictive error-detection model using Python and Scikit-learn on keystroke dynamics data to anticipate the next 5 likely typing mistakes in real time.
- Integrated the ML inference pipeline into a Next.js web application with low-latency serving, containerised via Docker for production scalability.
- Built an immersive 3D interface with React Three Fiber and Blender-authored assets alongside a live multiplayer typing mode and smart analytics dashboard.

TyperHouse Phase 1 — Real-Time Multiplayer Typing Game

[typerhouse.tech](#) ↗

Jun 2025 – Oct 2025

- Built a room-based multiplayer typing game with Google authentication (NextAuth), unique room codes, and automatic game launch on two or more participants joining.
- Implemented real-time WPM tracking, dynamic paragraph generation by test duration, and live visual feedback for incorrect words using Socket.IO.

NEXT.JS

NEXTAUTH

SOCKET.IO

TAILWIND CSS

Training & Placement Platform

[tnpgndec.com](#) ↗

Nov 2025 – Present

- Centralised all placement activities for 5,000+ students — company drives, eligibility criteria, schedules, and result publishing — under a single institutional platform.
- Ensured data integrity and secure coordinator access while providing a clean, accessible student-facing interface for registrations and announcements.

REACT

NODE.JS

MONGODB

REST APIS

InfoCascade — Institutional Digital Notice Board

[infocascade.onrender.com](#) ↗

Oct 2025 – Present

- Built a real-time campus communication platform delivering exam, result, fee, and event updates to 800+ active users daily.
- Optimised database performance and adopted an event-driven architecture to guarantee timely, reliable information delivery at scale.
