INTERNSHIPS / TRAININGS

Co Technical Head Training & Placement Cell GNDEC	Oct 2025 - Present <i>Ludhiana</i>
Architected and deployed a scalable placement platform serving 5,000+ students with automated eligibility filtering, drive scheduling, and real-time results processing.	
Built student-facing dashboards for drive registration, eligibility tracking, and official announcements, improving communication transparency across the campus.	
Software Engineer Mohey Innovations	Nov 2024 - Oct 2025 <i>Remote</i>
Delivered full-stack features and internal data management tooling under tight deadlines, streamlining operational workflows across business units.	
Strengthened engineering practices in CI/CD workflows, database optimization, and cross-team technical communication	
Software Engineer The RD Group of Industries	July 2024 – Sept 2024 <i>Remote</i>
Collaborated with cross-functional teams using GitHub for version control, code reviews, branch management, and efficient project coordination in a professional development environment.	
Assisted in developing and maintaining real-time web applications using modern development workflows.	
Software Development Intern Volsec.io	April 2024 - July 2024 <i>Remote</i>
Developed and maintained responsive web applications using React.js, Next.js, Node.js, Express.js, Prisma, MongoDB, and Tailwind CSS, ensuring high performance and user-friendly experiences.	
Collaborated with cross-functional teams to design, test, debug, and integrate RESTful APIs, contributing to the successful delivery of scalable web solutions in an Agile environment.	

PROJECTS

[TyperHouse](#) | *Python, Scikit-learn, ML Pipeline, Next.js, MongoDB, Docker, Socket.IO* Nov 2025 - Feb 2026

Trained a Scikit-learn classification model on keystroke dynamics data to predict the next 5 likely typing mistakes in real time and surface personalized improvement tips

Integrated the ML inference pipeline into a Next.js web app with containerized Docker deployment, an immersive 3D interface built with React Three Fiber, and a live multiplayer typing mode with smart analytics.

[Training & Placement Platform](#) | *React, Node.js, MongoDB, REST APIs* Nov 2025 - Present

Centralized institutional platform serving 5,000+ students with automated eligibility filtering, recruitment drive scheduling, result publishing, and secure role-based access for TNP coordinators.

Ensures accurate, real-time communication between the placement cell and the entire student body.

[InfoCascade \(Mobile App & Website\)](#) | *React Native, Firebase, MongoDB, JavaScript, Tailwind CSS, Web Development* June 2025 - Present

Real-time campus communication platform delivering exam, result, fee, and event updates to 900+ registered users and 1,000+ daily page views.

Built on an event-driven architecture with optimized database queries to guarantee timely, reliable information delivery at scale.

ACHIEVEMENTS

Solved 300+ Data Structures & Algorithms problems on LeetCode and GeeksforGeeks.

Built and deployed multiple production-grade full-stack applications.

Led development initiatives as Co-Technical Head at GNDEC T&P Cell.

EXTRA-CURRICULAR ACTIVITIES

Leadership & Student Community Work

Freelancing & Professional Development
